

# Requirements for the Licensing of New or Relocating Child Care Centers (CCC)

- When is a LSRP required?
- When is a Response Action Outcome required (RAO)?

References for notes on next page:

1- Madden refers to P.L.2007 ch.1 which requires an entire site NFA (RAO) prior to licensing of new centers.

2- Note that sites NOT subject to Madden sites may (but are not required to) use a LSRP for the PA.

3- If NFA previously issued, PA can be limited to period since issuance of prior NFA.

4- If all AOCs (including those that were not considered to impact the CCC) are addressed by the LSRP per N.J.A.C. 7:26C-2.4, an entire site RAO can be issued.
